

Data and performance for the requesting of lists

Explanatory Notes

There are a number of similarities between the responsibilities in respect of *UCI Request CPL*, *UCI Request OCL* and *UCI Request DSNL*. These responsibilities are placed in this page.

1. *MedMij Registration* is addressed in *UCI Request CPL*, *UCI Request OCL* and *UCI Request DSNL* with the hostname `stelselnode.medmij.nl`. The URI of the:

- *Care Providers List* is https://stelselnode.medmij.nl/MedMij_Zorgaanbiederslijst.xml
- *OAuthclientlist* is https://stelselnode.medmij.nl/MedMij_OAuthclientlist.xml
- *Data Service Names List (DSNL)*
is https://stelselnode.medmij.nl/MedMij_Gegevensdienstnamenlijst.xml

2. The participation of *MedMij Registration* in each of the use case implementations *UCI Request CPL*, *UCI Request OCL* and *UCI Request DSNL* is available at least 99.9% of the time. If the participation referred to becomes unavailable, then *MedMij Management* will allow a maximum of eight hours (480 minutes) to elapse before it is available again.

3. In the event of such an incident, *MedMij Management* informs *Publishers*, *Sources* and *Readers* that the incident has occurred and tells them the expected downtime. *MedMij Management* informs the parties about scheduled maintenance that will lead to temporary unavailability.

4. If *MedMij Registration* is unavailable in *UCI Request CPL*, *UCI Request OCL* and/or *UCI Request DSNL* then the relevant requesters are allowed to use - for a maximum of 10 hours - the most recent copy of the relevant list in the cache.
